## Summary

---

"Try not to become a man of success, but rather try to become a man of value." (Albert Einstein).

I firmly stand by this quote from Albert Einstein, as it encapsulates my work ethic and commitment. If you are a man of character, determination and value, success will follow.

I'm a passionate software engineer that had the opportunity to work in various fields, and with lots of people, starting out as an intern, and maturing as a software architect.

In the past 3 years, I was a founding engineer on a danish startup, Fullview, which is now evaluated at \$33M.

## Experience

---

### AEL Engineering | Cluj, Cluj-Napoca

**Founder, CEO and President | 01/2023 - Present**

My very own software company.

### Fullview | Cluj, Cluj-Napoca

**Founding Engineer & Tech Lead | 11/2021 - 04/2024**

- Building a cloud product that helps people connect and handle business better, faster, and more reliable. With an async mindset, I'm trying to decouple complex web structures and components to generate reactive self containing services (RSCSs) able to handle stress factors from various sources
- I'm also working with an awesome team to deliver the right balance between software quality and software readiness. Startup world is a challenging ecosystem, and you should always be ready to React (no pun intended) to what's happening around you and that might be changes to your product, software, goals, team, mindset!
- In charge of BackEnd product architecture, development, cloud architecture (AWS) + bridging the team and many more!

### GoodLeap | Cluj, Cluj-Napoca

**Software Architect / Technical Team Lead / Software Engineer | 08/2020 - 04/2022**

- Leading a team of 7 people to deliver funding solutions and support building cloud native apps and SaaS's!
- Key topics: Fintech, AWS cloud, NodeJs solutions, Typescript, Microservices, Lambdas
- Working with Amazon AWS, providing serverless / lambda solutions written in NodeJs (TS/JS) to provide friendly financing options for those who dream of living a more sustainable lifestyle and want to save money using modern technology
- GoodLeap's vision: "We are a digital conduit connecting the world's growing sustainability marketplaces
- We provide frictionless, point-of-sale technology for countless mission-driven professionals and millions of people who seek to live more sustainably."

### Code4Nord | Cluj, Cluj-Napoca

**Senior Software Engineer | 09/2019 - 08/2020**

- Senior Full-Stack NodeJs / React - PHP 5.6 / Angular x Work domains: - system development (Fullstack php/angularJs, backend NodeJs) - system maintenance (Heroku/Github/proprietary systems - similar to DevOps) - system migration (incremental deployments, continuous integration, migration from old php/angularJs to NodeJs).
- Senior .NET Developer An ERP application for a danish customer In charge of the development of the application by fixing existing / known bugs, and adding new functionalities, such as interactive resource scheduling panels, dialogs, views, data-manipulation sheets etc It's a one man project with a daily interaction with the PO and the owner of the application, interactions aimed at yielding the best result for our customer and his business

### NTT DATA Romania | Cluj, Cluj-Napoca

**Senior .Net Developer | 05/2018 - 08/2019**

- Working on a WPF financial tool for one of Germany's leading Insurance Companies (RuV)
- I write reliable backend solutions for our WPF application that handles temporal financial indices for insurance contracts.

### NetMatch | Cluj, Cluj-Napoca

**.NET Mentor / .NET Developer / .NET Intern | 08/2014 - 05/2018**

- Backend (main): Asp .Net, C# 6.0 .Net Core 2.0+

- Web: Html CSS JavaScript = [CanJS, jQuery, iScroll,nodeJs,react]
- Agile development (SCRUM, KANBAN)
- Environment: Jira, GitLab
- Source controls: - Git - TFS 2015 (TFVC)
- Deployment: - Teamcity
- Selenium (automatic testing) .

#### **Bettersoft | Cluj, Cluj-Napoca**
